jchakra LearnSmart can be assigned for a grade, available as a study tool. Either way has shown remarkable results. #adaptivechat -7:35 PM Apr 25th, 2012

renaiscienceman #adaptivechat My students think that LearnSmart helps them cut down on their study time as it helps them focus on weaknesses -7:36 PM Apr 25th, 2012

jchakra The reports and data that come back from LearnSmart, can help a professor... #adaptivechat -7:37 PM Apr 25th, 2012

jchakra ...really pinpoint a students weak areas they might be unaware of. #adaptivechat -7:37 PM Apr 25th, 2012

SehreenNoorAli Q11@heyjohnsexton: This tech helps people learn anywhere, anytime. How can the physical classroom stay relevant & add value? #adaptivechat -7:37 PM Apr 25th, 2012

profseitz @SehreenNoorAli I do - Adaptive MUST = Flexible - doing the work WHEN and WHERE the student is in their life. #adaptivechat -7:38 PM Apr 25th, 2012

renaiscienceman #adaptivechat I combine the metacognitive skills report with % of completion to create detail reports for studens. -7:38 PM Apr 25th,

psychdfc @SehreenNoorAli Some can see a positive change right away. I can show that others studied 12 min. That's why they failed exam! #adaptivechat -7:40 PM Apr 25th, 2012

SehreenNoorAli @psychdfc i wish i was able to use adaptive learning when i was in school. i am sure i would've been MUCH more engaged... #adaptivechat -7:41 PM Apr 25th, 2012

juulchristensen We often see students where we suspect they spent MORE time because they are now

aware where to invest more time. #adaptivechat -7:41 PM Apr 25th, 2012

jchakra Re Q11 - Physical classrooms can now become places for collaboration and critical thinking activities versus lecture & review #adaptivechat -7:42 PM Apr 25th, 2012

SehreenNoorAli @renaiscienceman that's amazing. what sort of feedback do you get from students on these reports? #adaptivechat -7:42 PM Apr 25th, 2012

SehreenNoorAli @juulchristensen hence, proof that they study "smarter." nice. #adaptivechat -7:42 PM Apr 25th, 2012

jchakra Re Q11 - This is a dream come true for educators and students. #flippedclassroom #adaptivechat -7:42 PM Apr 25th, 2012

SehreenNoorAli Adaptive learning sounds great...but, is there data that proves it is effective? (Q12!) #adaptivechat -7:43 PM Apr 25th, 2012

renaiscienceman #adaptivechat I take regular 'snapshots' of the metacognitive skills reports to show improvement (or 'regression'). -7:44 PM Apr 25th, 2012

juulchristensen @SehreenNoorAli Tells us that we CAN move them from unconsciously incompetent to knowing that they need to study #adaptivechat -7:44 PM Apr 25th, 2012

profseitz @heyjohnsexton I see these technologies as preparing students for the Higher Order Thinking (Application) I expect in class... #adaptivechat -7:45 PM Apr 25th, 2012

jchakra Re Q12 - In 1 study, students using LearnSmart had a 12.5% pt increase in pass rates and a 10.5% point increase in retention #adaptivechat -7:45 PM Apr 25th, 2012

heyjohnsexton @jchakra I agree! How best can we get instructors to switch to this "investigative" mode of learning vs. lecture? #adaptivechat -7:45 PM Apr 25th, 2012

jchakra Re Q12 - In another study, students using LearnSmart performed, on average, 10.24 points higher on all exams #adaptivechat -7:45 PM Apr 25th, 2012

psychdfc @SehreenNoorAli Me, too. Now I benefit from it as a prof. Adaptive learning is about real-time. They need help now! #adaptivechat -7:45 PM Apr 25th, 2012

SehreenNoorAli I'm curious which universities and schools use LearnSmart or Power of U? Anyone on the chat from these universities? #adaptivechat @jchakra -7:46 PM Apr 25th, 2012

sgemediagroup Adaptive learning sounds great.but, is thr data that prves it is effective? #adaptivechat is thr data tht nonadaptive Learning is effective? -7:47 PM Apr 25th, 2012

MHEducation And we're headed toward the home stretch! Get your adaptive learning questions in now. #adaptivechat -7:48 PM Apr 25th, 2012

psychdfc @jchakra we didn't study retention rates, but we have consistently seen students improve by a letter grade who use it. #adaptivechat -7:48 PM Apr 25th, 2012

SehreenNoorAli Thx to @heyjohnsexton for Q14: How best can we get instructors to switch to this "investigative" mode of learning vs. lecture? #adaptivechat -7:49 PM Apr 25th, 2012

renaiscienceman #adaptivechat Using LearnSmart has resulted in a letter-grade diff in my students' scores: from mid-C to mid-B and from mid-B to mid-A. -7:50 PM Apr 25th, 2012

sgemediagroup "@profseitz: I see these technologies as preparing students for the Higher Order Thinking I expect in class... #adaptivechat" yes! -7:50 PM Apr 25th, 2012

SehreenNoorAli @renaiscienceman have other instructors picked up adaptive learning after seeing success with your students? #adaptivechat -7:50 PM Apr 25th, 2012

heyjohnsexton @jchakra indeed, a good thing to hope for :) i think those that adopt these methods will thrive while others fall behind #adaptivechat -7:50 PM Apr 25th, 2012

jchakra Re Q13 - ...great results...University of Cincinnati - student retention rates increased from 70% to more than 90%. #adaptivechat -7:52 PM Apr 25th, 2012

StevenHCady Students reactions are it will require more time studying. On avg they spend 30 min week. Good to spend more time.@MHEducation #adaptivechat -7:52 PM Apr 25th, 2012

jchakra Re Q13 - CSU Dominguez Hills (@DominguezHills)- 72% of students achieved a 70%+ on the final vs 48% w/o Connect + LearnSmart. #adaptivechat -7:53 PM Apr 25th, 2012

renaiscienceman @sehreennoorali A few have, but unfortunately not too many #adaptivechat -7:53 PM Apr 25th, 2012

psychdfc @renaiscienceman #adaptivechat What are you attributing this to? More focused study? Your individualized attn and reports? A combo? -7:54 PM Apr 25th, 2012

therobinson1979 Numbers don't lie! #adaptivechat -7:54 PM Apr 25th, 2012

profseitz @heyjohnsexton IMHO, we all want to engage students with the richer applied material but can't bc they don't have the basics. #adaptivechat -7:54 PM Apr 25th, 2012

renaiscienceman @sehreennoorali For some it would mean switch to a different text book, which then makes it difficult with their Chairs #adaptivechat -7:54 PM Apr 25th, 2012

SehreenNoorAli @jchakra, I'm interested in student data. LearnSmart captures a lot of useful information -- what can we do with it? #adaptivechat -7:54 PM Apr 25th, 2012

jchakra Re Q13 - @NMSU - students finishing all LS modules scored a weighted avg of 10.24% higher on all exams than those who didn't. #adaptivechat-7:56 PM Apr 25th, 2012

SehreenNoorAli With about 5 mins left, we'd love to take another round of questions! #adaptivechat -7:56 PM Apr 25th, 2012

psychdfc @StevenHCady #adaptivechat I disagree that more is always better. Before my students studied more of the wrong things. -7:56 PM Apr 25th, 2012

StevenHCady Staticians do. @therobinson1979 #adaptivechat -7:56 PM Apr 25th, 2012

renaiscienceman @psychdfc #adaptivechat I think is bc they focus more in weak areas and their metacognitive skills improve -7:57 PM Apr 25th, 2012

heyjohnsexton @profseitz That makes sense. Adaptive methods seem great for helping people get those critical basics outside class time #adaptivechat -7:58 PM Apr 25th, 2012

AngieSmajstrla @jchakra LearnSmart is Just in Time Teaching, allowing for more interactive classroom activities and focused learning! #adaptivechat -7:58 PM Apr 25th, 2012

psychdfc @renaiscienceman #adaptivechat That's certainly consistent with my data, so you must be right! ;) -7:58 PM Apr 25th, 2012

StevenHCady great point. there are students spending little time on wrong stuff. if they are on right stuff they want more time @psychdfc #adaptivechat -7:59 PM Apr 25th, 2012

SehreenNoorAli @psychdfc @profseitz @psychdfc how did you first get hooked on adaptive learning? #adaptivechat -7:59 PM Apr 25th, 2012

renaiscienceman #adaptivechat The key seems to be the interaction between adaptive questioning-continuous testing-metacognition -7:59 PM Apr 25th, 2012

jchakra Re Q14 - Or even better - What did students who were struggling with Topic X, do to get "unstuck"? #adaptivechat -8:00 PM Apr 25th, 2012

sgemediagroup "@jchakra #adaptivechat. Thanks Jay and others...let's do this again sometime! -8:00 PM Apr 25th, 2012

StevenHCady Right on. @renaiscienceman #adaptivechat -8:01 PM Apr 25th, 2012

SehreenNoorAli @sgemediagroup so glad you came -- looking forward to the next one. #adaptivechat -8:01 PM Apr 25th, 2012

profseitz Qualitatively (and selfishly), my classes became MUCH more fun to lead because I could take my students so much further! #adaptivechat -8:01 PM Apr 25th, 2012

psychdfc @SehreenNoorAli #adaptivechat My students sold me on it. It was effective. If it works for them, it works for me. -8:02 PM Apr 25th, 2012

renaiscienceman #adaptivechat It also helps me to remind myself that I teach not the way I like but the way they learn... :) -8:02 PM Apr 25th, 2012

heyjohnsexton @profseitz that's a good thing. students learn more -> more fun for both you and them -> students learn more. virtuous cycle #adaptivechat -8:03 PM Apr 25th, 2012

jchakra @StevenHCady In a student survey with more than 630k responses, 90% indicated that the time spent in LS was about right. #adaptivechat -8:03 PM Apr 25th, 2012

renaiscienceman #adaptivechat In this case, I like the way they learn! -8:03 PM Apr 25th, 2012

renaiscienceman 20-25 minutes/day has worked for me as the ideal time I want students to spend on LS #adaptivechat -8:04 PM Apr 25th, 2012

MHEducation We've come to the end of our first #adaptivechat. Thanks to our gracious moderator, @SehreenNoorAli, and of course all who participated! -8:05 PM Apr 25th, 2012
